                                           mirror
Em                                          G
And you comb your hair and grab your coat and go
                                              out
          Em                          G          Em
And you walk the wet streets tryin' to remember
        C                    D                G
All the wild night breezes in your memory ever

And everything looks so complete
                Em                 C      F/C
When you're walkin' out on the street
          Em                     C
And the wind will catch your feet

And all the girls walk by dressed up for each other
Em
And the boys do the boogie woogie on the corner
                                              G
                                         of the street
          Em                                G
And the people passin' by just stare in wild wonder
                                                Em

Come on out and dance come out and make
